

ATTENTION PASSENGERS WITH SHOPPING CARTS

Effective Monday, September 29, 2014 on vehicles 200 and 201, shopping carts will be allowed but the following procedures must be followed:

- Only two carts will be allowed on at a time (no exceptions, just like two strollers, two bikes in the bike rack, and two mobility devices).
- Carts must be a size that does not block the aisle (see picture below for example).
- Customers with carts must sit in one of the two front seats behind the wheelchair space and directly behind lift door (again see picture) and you must hold on to the cart at all times.
- At NO time can the aisle be blocked on ANY vehicle by shopping carts or strollers.
- We will be reviewing this policy in 30 days.
