

Help guarantee your pet's safe return home with DocuPet's HomeSafe Lost Pet Program

The HomeSafe online tool is designed to connect pet owners with their community for sharing updates about the whereabouts and condition of lost pets.

All licensed pets are assigned a unique identifying code that is stamped into their physical tag and tied to their online profile. This allows both pet owners and pet rescuers to easily and efficiently communicate through the system's Lost and Found Pet Reports.

Not only can you report your pet lost through their online profile, but pet finders can easily go online, enter the number found on your pet's tag, and immediately get access to the contact information you have chosen to provide. The HomeSafe Lost Pet System makes it easy for people to help your pet get home **Safe**.

Do you have a pet? Does your pet have a license?

**DID
YOU
KNOW?**

It's the law

As per the City of Battle Creek's Ordinance regarding the Licensing and Regulation of Pets, all dogs and cats must be licensed each year. Unlicensed pets may be subject to a fine of \$50.

Pet licensing plays an important role in our ability to ensure a safe community for our citizens and their pets. A license allows animal control to identify your pet, get in touch with you, and make decisions that are in the best interest of your pet should they become lost or injured.
