There are **1324** positive cases of COVID-19 in Calhoun County

There are **45** deaths reported

There are **9** persons currently hospitalized in Calhoun County

975 persons have been released from isolation orders

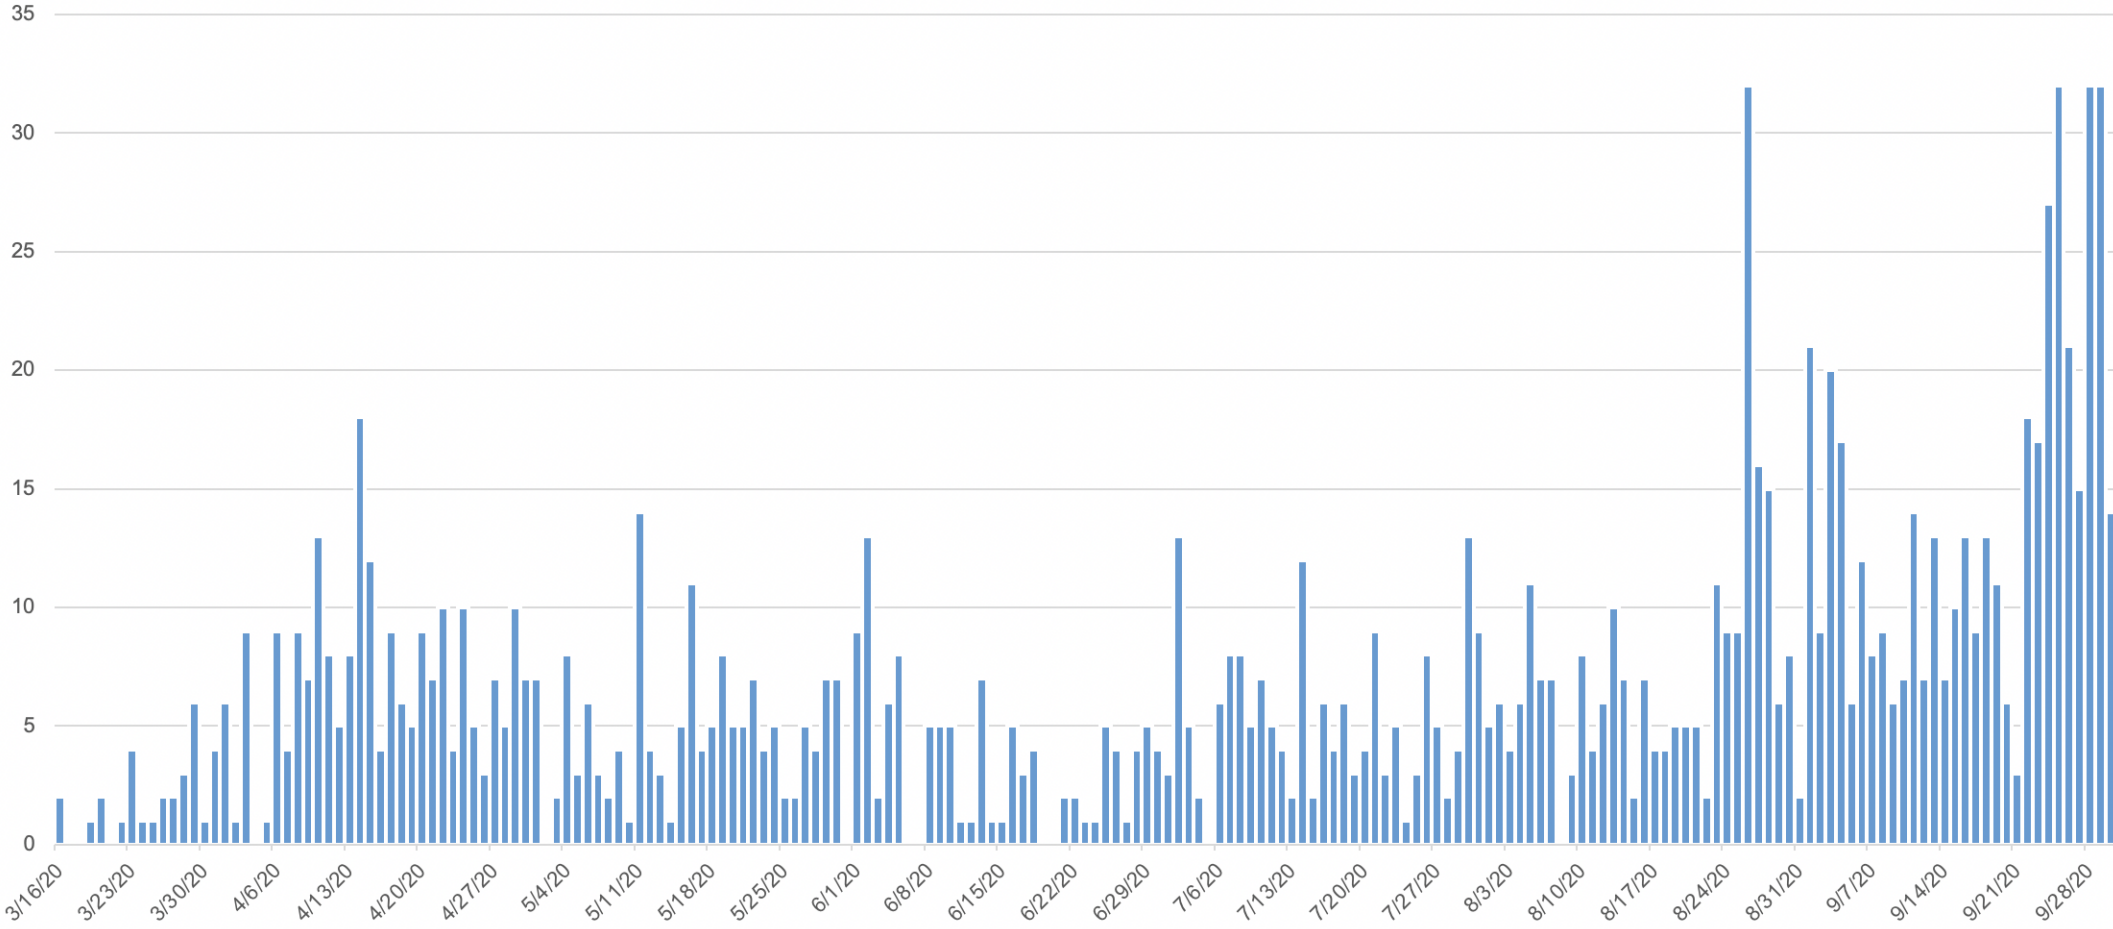

This information is updated once **daily Monday-Friday** by the Public Health Department at calhouncountymi.gov.

Calhoun Confirmed Cases

updated 9/30/20

Positive COVID-19 Cases by Referral Date, Calhoun County, 2020

Recent Sources of Cases

Gatherings continue to be the primary source of recent cases:

- Family gatherings, such as weddings, funerals, birthday parties
- Religious services

What we see, important to remember, these gatherings impact not just the participants but the individuals who make them possible.

That's why it's important to keep gatherings to as few people as possible.

Changes to CCPHD Services

Beginning Thursday, the CCPHD will focus clinical services on Flu Vaccinations, Immunizations, and TB Testing.

Revised Clinic schedules are as follows:
